Note: Data are not readily available by Employment Region. ABS Labour Force Survey data are based on the Geelong SA4. The Internet Vacancy Index (IVI) and income support data are apportioned to Employment Regions using an SA2 based concordance. *With the cessation of jobactive and the commencement of Workforce Australia, caseload data is temporarily unavailable. Department of Social Services (DSS) data on job seeker income support payments has been included instead. Note that not everyone in receipt of income support is on the caseload. **DSS job seeker payments include those who are in receipt of either JobSeeker (aged 22 and over but under the Age Pension qualifying age) or Youth Allowance (other) payments (those aged 16 to 21). Data are published on data.gov.au. **ERP estimates are only available by standard 5 year age groups.
